

BICS 3A ARTIFICIAL INTELLIGENCE GROUPWORK MINUTES

Meeting Minutes

September 16th, 2026

Opening

The meeting of the groupwork assignment assigned was called to order at 10:00pm on September 16th, 2026 by Makedi Duane barrack, using google meet as our platform(<https://meet.google.com/sra-tmic-duq>).

Present

Makedi Duane Barrack, member

Njoroge Moses Mugo, member

Mbuvi Kilonzo Alfred, member

Agenda

Topic 1: Understanding the task at hand and allocation of tasks

Our first discussion was on how break down the assignment, clearly getting the gist of what is intended of us, what our achievements should be and the best possible way to go about it. After carefully going through the instructions of the task at hand we embarked on delegation of the workload. Mbuvi Kilonzo Alfred would publish to GitHub a repository named Data-Wrangling, the rest of the members would fork the repository to their individual accounts. It was decided that each member would do their own work and we will all congregate and benchmark our answers before submitting the work.

Topic 2: Meeting of deadlines

The completion of the assignment by all was set to the 17th of September, and a meeting to compare, evaluate and merge the answers of each member was brought forth. Some members argued that the meeting should be on the night of the 17th while others were for the morning of the 18th. It was decided that the morning of the 18th would suffice for each member to clearly go through their work and ensure it was complete and correct devoid of any errors.

Topic 3: Submission of the assignment

The discussion on who should be the one tasked with the submission of the assignment as well as who will oversee the writing of minutes arose. It was decided that Makedi Duane Barrack would be the one in charge of minute writing and Mbuvi Alfred Kilonzo will be the one in charge of submission of the assignment on eLearning.

Adjournment

Meeting adjourned at 12:00am by Njoroge Moses Mugo

Next meeting: 18th, 10:00am, STC
